# Meet Our Team

Nishan Singh - The Lead Developer

Hey there! I'm Nishan, and I led our team in creating the Random Quote Generator. My passion lies in coding and crafting beautiful user interfaces.

My Contributions:

HTML & CSS Styling: I designed the look and feel of our application, ensuring it looks sleek and works seamlessly on all devices.

JavaScript : I brought the generator to life, making sure it picks random quotes and handles user input flawlessly.

Managing the Project: I organized our team efforts, making sure everyone had a clear path to follow and keeping us on track.

Nikunj - The Detail-Oriented Helper

I'm Nikunj, a detail-oriented enthusiast who loves adding the final polish to projects. I had a blast working on this generator!

What I Did:

Refining Front-End: I helped fine-tune the interface, making sure it was easy on the eyes and worked

Testing and Fixing: I dug deep to find bugs and made sure everything ran as smooth as butter.

Nishtha - The Creative Support

Hi, I'm Nishtha! I love bringing creativity to the table, making sure our project stands out and captures attention.

My Role:

Design Ideas: I offered creative suggestions to make our app visually appealing and engaging.

Content Input: I helped gather and organize quotes, especially for our Nature and Science categories.

Checking for Quality: I tested our app across devices to make sure it worked flawlessly.
